Republicans Win All Lake County Offices

MAJORITIES RANGE FROM 6,502 TO 13,152; OLIVA SHIFT FAILS

Union Overlord Delivers for Only Two Candidates—Alford and Tyrrell

With majorities ranging from 6,500 to 13,000 all Lake county Republican candidates were swept into office in Tuesday's election. While the state was voting Democratic, electing Scott Lucas, Dick Lyons' opponent for U. S. Senator, and sweeping into office the entire Democratic state ticket, Lake county remained loyal to the G. O. P. as did McHenry county with a great Republican landslide vote.

The overwhelming Republican vote in the county surprised even the most optimistic party workers and proved the undoing of many a Democratic prognosticator who had his neck out with predictions of easy victories for the Jeffersonian aspirants for office.

Complete but unofficial returns from all 95 precincts in the county follow:

REPUBLICAN	DEMOCRATIC
Persons 27,605	Sullivan 16,479
County Clerk	
Morse 26,161	Alford 18,883
Probate Judge	
Decker 27,280	Yager 18,003
Probate Clerk	
Nelson 28,182	Hebrior 15,698
County Treasurer	
Leaf 27,666	McMillen 15,566
Sheriff	
Kennedy 25,788	Tyrrell 19,286
Supt. of Schools	
Petty 28,768	Simpson 15,616

Antioch Strong for G. O. P.
Antioch township registered 100 per cent Republican in all three precincts with a majority for each G. O. P. candidate. County Superintendent of Schools W. C. Petty was high in the township with a total of 1,061 votes.

Petty also led the county vote with 28,768, losing only three of the 95 precincts to his Democratic opponent, T. A. Simpson. Here is how Antioch voted:

Antioch Precincts	1	2	3	Tot.
Sullivan	230	144	62	426
Persons	446	445	65	956
Alford	263	186	56	505
Morse	420	408	68	896
Yager	241	159	55	455
Decker	433	423	69	925
Hebrior	223	142	55	420
Nelson	447	444	70	961
McMillen	325	228	59	612
Leaf	362	371	67	800
Tyrrell	229	178	57	464
Kennedy	464	424	71	959
Simpson	186	110	56	352
Petty	502	490	69	1061

Voliva Vote Fails
Wilbur Glenn Voliva, overlord of Zion and erstwhile wielder of voting power, took the trimming of his life in Tuesday's balloting. The over-seer's support gave only two Democratic candidates an advantage over their Republican opponents. Tyrrell had a three-vote lead over Kennedy, and Alford was given a 14-vote advantage over Jay Morse. County Superintendent of Schools W. C. Petty, who was the first Lake county candidate who ever openly ignored Voliva's support when he ran for the office in 1932, strangely enough topped the Zion vote Tuesday, receiving a total of 1,659 votes to Simpson's 1,074. Voliva recently endorsed the entire Democratic slate. In former years he has supported Republican candidates.

Banking Amendment Defeated
Following the lead of the state Antioch also recorded an adverse vote on the banking amendment. Blank ballots doomed the attempt at bank reform throughout the state, returns revealed. While only 11 per cent of all ballots were marked against the proposal, 61 per cent of the voters failed to mark their ballots either for or against the measure. In effect, the blanks were negatives, because for a constitutional amendment to pass it must receive a majority of ballots cast, not simply a majority of the votes on the proposition.

The advisory ballot to congressmen declaring against participation in any war on foreign soil without first having a referendum vote, carried by a wide margin of votes.

Three Unopposed
Rep. Nick Keller of Waukegan (R), Harold D. Kelsey of Barrington (R), and Rep. Thomas A. Bolger of McHenry (D) were elected to the general assembly in the Eighth senatorial district comprised of Lake, McHenry and Boone counties without opposition.

NEW DEAL ON WAY OUT AS G.O.P. MAKES GAINS IN CONGRESS

Republicans Capture 78 Seats; 5 in Doubt; Elect 16 Governors

The New Deal is definitely on the way out. This was indicated today when late returns from Tuesday's election gave the Republican party a gain of 78 seats in the House of Representatives with five contests remaining in doubt.

Returns on election of governors in 32 states shows a gain of 11 for the G. O. P. Democrats elected 11 governors, but lost in nine states. Republicans elected 16. Progressives and Farmer-Laborites each lost a governor. Sixteen states were unaffected by the election: Democrats have 15 incumbents and Republicans 1 (Maine, which elected in September.)

The real victory, according to Republican leaders, lies in the fact that enough hand-picked "yes men" were defeated in congress to re-establish the independence of that branch of the American government, to stop the drift toward dictatorship, to end the silly third term talk, and to re-establish government of law instead of rule by personal mandate in Washington. In the future starry-eyed brain-truster will be in disrepute in Washington and there will be more of a balance among the three branches of our government.

CHURCH LEADS VOTE

Complete returns from the Tenth congressional district gave Congressman Ralph Church a decisive victory over Joseph F. Elward, his Democratic opponent, by a margin of 39,425. Lake county gave the congressman 28,561, and the Cook county part of the district added 113,336 for a total of 141,897, while Elward received 15,973 in Lake county and 86,328 in Cook. Church's majorities are as follows: Chicago 3,500; Evanston 12,900; New Trier 8,700; Nile 1,100; Northfield 625; and Lake county 12,600.

Congressman Church today asked the News to convey his thanks to all of his Antioch and Lake county friends for their expression of confidence in returning him to office.

LYONS MAKES GOOD RACE DOWN STATE; LOSES TO LUCAS

Chicago Vote Wins for Democrats in Sweep of State Offices

The balance of power in the hands of Chicago and Cook county machine politicians furnished the bulk of votes that swept Scott W. Lucas into the senatorship and gave Democrats a clean sweep of all Illinois state offices.

After coming to the Cook county line with a substantial downstate majority, Richard J. Lyons was unable to overcome the Cook county vote and was defeated by between 75,000 and 100,000, latest returns revealed today. In Lake county Lyons had an edge of more than 12,000 votes over his opponent, and McHenry county gave him an advantage of about 7,000.

The Woodstock Sentinel in its edition yesterday remarks that "we have every reason to feel proud of the fine race made by Richard J. Lyons in the face of the machine politicians of Chicago." And that goes for Lake county and the entire eighth senatorial district as well.

Grade School Vacation Periods Are Announced

Thanksgiving vacation at the Antioch Grade school will open on Wednesday evening, Nov. 23, and last until Monday morning, Nov. 28, according to an announcement that has just been made.

The Christmas vacation will be from Dec. 23 to Jan. 2; Easter vacation from April 7-10. School will close on May 26.

There will be no school on Armistice Day.

Chicago Masons To Visit Sequoit Lodge Tuesday

Work in the third degree will be exemplified by Ben Franklin Lodge No. 762 of Chicago for the local Sequoit lodge here on Tuesday night, according to announcements sent out this week under the direction of Worshipful Master Emil Lubkeman.

The Masons and their guests will enjoy a dinner at 6:45 in the lodge dining room preceding the degree session.

BRIGHTON YOUTH KILLED IN AUTO ACCIDENT ON 173

Eldor Peterson, 23, Dies Instantly When Car Turns over in Ditch

Eldor Peterson, 25, of Brighton township, Kenosha county, was killed instantly Monday morning at 2 o'clock when the car in which he was riding went down a four-foot embankment and overturned, on route 173 at the Spring Grove road intersection.

The heavy rainfall late Sunday night and early Monday morning was blamed for the accident.

The car, a 1928 Ford Tudor driven by Franklin Reynolds, 23, from east of Twin Lakes, was traveling north on the Spring Grove road.

Reynolds stated in a coroner's inquest held at Richmond Monday afternoon that he was driving at a rate of only about 20 miles an hour, due to the obscurity of vision.

He failed to see the stop sign at the intersection, where Spring Grove road comes to a dead end, and realized that the road ended only when he was half-way across the highway.

He then attempted to turn the car into the highway, but went off on the gravel shoulder of the road and the car rolled completely over into the ditch.

Summons Help
Reynolds and another passenger in the car, Richard Murrie, also from near Twin Lakes, were unhurt, and managed to get out of the automobile. They flagged a car which passed a few minutes later and Murrie went to a nearby farmhouse to summon aid for Peterson. He was unable to rouse anyone there and went to Richmond, where he summoned Dr. J. E. Dickey, who on arrival at the scene of the accident pronounced Peterson dead.

A summons was also sent in to the state highway police and Officer Paul Chase of Antioch responded to the call. Officer Chase later took Murrie and Reynolds to their homes, and corroborated testimony as to driving conditions at the time of the tragedy.

A verdict of accidental death was returned by the coroner's jury.

Antioch Library Has New Quarters; To Move This Week

The Antioch Township library closed today preparatory to moving from the grade school building to the new location on the second floor of the Kline building, which was formerly occupied by the telephone exchange. The library will reopen one week from today, according to Miss Mary Stanley, librarian.

The new location which was leased by the library board will offer more commodious quarters and the advantage of a reading room in connection, trustees explained. The library, now a township organization, will be more centrally located and there will be ample space for shelving of new volumes which are being added each year.

Mrs. Eleanor Michell is president of the board and the secretary is Dr. R. D. Williams. Other members are Mrs. Ruth Ward, Dr. L. J. Zimmerman, A. H. Pierstorff and Mrs. Marion Rigby.

Police Hold Dance

The annual dance sponsored by the Libertyville policemen was held Friday evening in the Libertyville High School gymnasium, with 250 persons attending.

STILL FIGHTING FOR DEMOCRACY

Old Hotel to Be Torn Down Soon

The Antioch hotel will be torn down some time in the near future, the village board has decided. The hotel is located on the site of the proposed village hall, and is owned by the village.

"We will have to either put a considerable sum of money into repairs and improvements in the near future, or tear it down," Mayor George B. Bartlett said, speaking of the factors that led to the decision of the board.

"Since the hotel would inevitably have to be torn down anyway when the village builds a new hall on the site, it was felt best to do it now."

Antioch officials have not as yet received definite notification as to whether or not the village will be able to receive a PWA grant for the proposed new hall. A bond issue for \$13,500 to be applied toward building the hall was recently approved by Antioch voters.

1ST RECREATION CLASSES TO BE HELD NOV. 17

Handicraft Classes Will Be Conducted in Afternoon and Evening

The first meetings of the Antioch Recreation association handicraft classes will be held on Thursday, Nov. 17, on the second floor of the old building at the Antioch Grade school.

These classes will be open to all adults who are interested in the various handicrafts and hobbies that will be taken up. They will cover a wide range, it is announced, and may include the making of articles, which would be appropriate as Christmas gifts, if this is desired.

Handicraft classes for young folks and various other recreation activities, in line with those which have proved successful in various communities in Lake and Kenosha counties, may be added at a later date.

Secure Instructors
The services of Miss Annabelle Waldo and Ralph Fox, who have successfully conducted handicraft classes in Gurnee, Round Lake and Deerfield, have been secured as teachers.

There will be afternoon periods from 2:30 to 5:30 o'clock and evening classes from 7 to 9:30, so that persons interested in handicraft hobbies may attend at the time most convenient to them.

Pottery making, leather work, rug weaving, block printing, metal and wood work are among the handicraft suggestions received to date. Persons having some special handicraft line they wish to follow will be welcomed and additional suggestions from interested persons will also be gladly received, it is announced by the Recreation committee.

C. W. Haake will act as supervisor. Further information may be secured from members of the Recreation committee, consisting of F. O. Hawkins, Mrs. E. J. Hays, Miss Cornelia Roberts, Robert Wilton and R. E. Clabaugh.

Granted Patent

Forest J. Arnold of Antioch has been granted a patent on a means for clamping on a bus conductor.

ANTIOCH WILL JOIN ARMISTICE DAY OBSERVANCE

Schools, Banks and Business Houses to Pay Honor to Holiday Friday

The twentieth annual observance of the signing of the Armistice which brought the World War to a close will be observed with a general holiday throughout Antioch tomorrow.

There will be no classes at either the Antioch Grade school or Antioch Township High school, Principals R. E. Clabaugh and L. O. Bright have stated.

All business establishments, coal and lumber yards and other private concerns will be closed from 12 to 6 p. m. The First National Bank of Antioch and the Antioch State bank will also observe the holiday, and will be closed all day.

Program This Afternoon

Invitations have been sent to outlying schools to attend the Armistice program being held this afternoon at 2 o'clock in the Antioch High School auditorium. Mayor Mancel Talcott of Waukegan is the principal speaker and the event is being sponsored by the American Legion and auxiliary in cooperation with the schools.

A patriotic pageant and appropriate musical selections are among the features on the program.

"SEEING EYE" TALK WILL BE GIVEN DEC. 6

Business and Professional Women Will Sponsor Lecture Here

Miss Roselle Brewer and her "Seeing Eye" dog will be presented in a talk at the Antioch Township High School auditorium Friday evening, Dec. 9, under the auspices of the Business and Professional Women's club.

Plans for the event were considered at a meeting held Monday evening in the home of Mrs. C. E. Hennings.

Proceeds of the lecture are to be turned over by the club to the "Seeing Eye" fund for training dog guides for the blind. Tickets are already available from Business and Professional Women's club members.

Talk on "Dress"

"Always try to see yourself in a full-length mirror when you are buying a hat," Mrs. Ruby Richey, home economics instructor at Antioch High school, told the club members in a talk on "Dressing Psychologically," which she gave at the meeting Monday night. "In that way you can see whether the hat flatters your figure as well as your face."

"Observe which colors in clothes bring out the different 'lights' in your eyes," she continued, "and no matter how much you like a dress, don't buy it if it doesn't 'do' something for you. 'Dressing well' is a matter of 'line,' color—and choosing the right foundation garments—as well as cost," she told her audience, in substance.

A woman should choose her clothes to flatter her personality as well as her appearance, Mrs. Richey added further, and should do her buying carefully rather than hastily or impulsively.

Committees for '38-39

Committees in charge of the club's various activities for the 1938-39 season include the following:

Student loan—Mrs. O. E. Hachmeister, Mrs. Irving Enns, Miss Ayelen Wilson.

Membership—Mrs. S. B. Nelson, Miss Grace Drom, Miss Cornelia Roberts.

Program—Mrs. Charles Lux, Mrs. Ruby Richey, Miss Wilma Musch.

Lions to Dine at Jim's Place

A wild duck dinner at Jas. Hanrahan's Resort (Jim's Place) at Grass Lake will preclude important business matters to be considered by the Antioch Lions club Monday evening at 7 o'clock. Plans for holiday and winter activities will be talked over at the meeting, and President Walter Scott is urging a full attendance of members.

Reservations should be placed with Secretary F. D. Powies not later than Friday night of this week.

GEORGE BROWE, OLDEST ANTIOCH MASON, IS DEAD

Passes Away at Age of 82; Funeral Services Held Today in Waukegan

Funeral services were held this afternoon at 2 o'clock in Waukegan for George Whitaker Browe, 82, known for the past few years as the oldest living member of Antioch Lodge, Ancient Free and Accepted Masons. Mr. Browe had been for 75 years a member of Christ Episcopal church in Waukegan.

He died Monday evening at 7 o'clock in Victory Memorial hospital, Waukegan, after an illness of six weeks. The son of Alfred and Harriet Browe, Lake county pioneers, George Browe was born in Newark, N. J., on May 19, 1856. He came with his parents to Wadsworth in 1863, and they settled on what became known as the Browe farm.

It was on this farm that the locally historic Browe school was located, where many county leaders received their grade school training under such teachers as Charles D. Wilbur, Christian T. Heydecker and Miss Mary Browe.

Moved to Russell
Mr. Browe was for a number of years employed by the Chicago, Milwaukee and St. Paul railroad. The family sold the homestead at Wadsworth in 1920 and moved to Russell, where they now reside.

Surviving are three sisters, the Misses Sarah Browe, Zion, and Mary and Elizabeth Browe, of Russell.

Members of the Antioch Masonic lodge were in charge of the funeral rites, which were held in Christ Episcopal church. Burial was in the family lot in the Millburn cemetery.

Fox Lake Telephone Girl Ends Own Life

Funeral services will be held in Chicago Friday for Miss Alice Rushmore, 32, of Fox Lake, whose death occurred Tuesday.

Miss Rushmore, an operator in the Fox Lake telephone exchange, of which her mother is manager, had been suffering from a nervous disorder and melancholia. Shortly after she returned to her home from voting in the election Tuesday her body was found in the basement of the residence, where she had ended her life by hanging.

Surviving, besides her mother, are two brothers, Earl and Carroll. Burial will take place at Mount Greenwood cemetery.

Chicago Driver Is Charged With Recklessness Here

Leland Headland, Chicago, was charged with reckless driving before Justice of the Peace John Brogan of Antioch for driving on the wrong side of the road Monday and causing an automobile collision. Headland was driving west on Grass Lake road when his car struck the automobile operated east on the highway by George Little of Sycamore, Ill. Neither driver was injured.

The Driver Can't See You

With nightfall coming on just a little earlier every day, it may not be amiss to call the attention of the general public to a few street and highway safety precautions.

How many times have we heard the words, "I didn't see him!" given as the depressing explanation for some-times fatal automobile-pedestrian or automobile-bicycle rider mishaps.

A lame excuse, it would seem, yet tragically there is often more than a little truth in it. Until a driver is actually almost on top of a pedestrian or bicycle, he often literally CANNOT see him.

This is especially true in the case of foot way-farers wearing dark clothing, or unlighted bicycles. When an automobile with glaring headlights is approaching from an opposite direction the situation is even worse. The driver can see almost nothing.

It would be well, therefore, for pedestrians and "bike" riders to remember that the automobile driver can by no means see them as plainly as they can see him, and to make allowance for this fact. Drivers of cars with extremely bright or badly regulated headlights should dim them when passing other vehicles, and have them regulated. This is not only a courteous and helpful gesture—but a law-abiding one as well.

And all, driver and foot-farer alike, should BE CAREFUL!

Spies in Our Midst

Spies of foreign governments are thoroughly despised and hated. But they always work in the dark and are seldom caught performing any act for which they could be shot, or imprisoned. In our own country we have many employees in the Intelligence Service. Oh, of course, that's different! As ex-President Wilson said in describing a lobbyist: "He is an enemy if he is against you, and a patriot if he is on your side." With that point of view, the suggestion comes to have spies of our own, to spy on spies.

It is said that the WPA funds will last until March, 1939. It will then be necessary to get a new appropriation to last until November, 1940.

Business and Politics

About a year ago the bottom suddenly dropped from under the flow of business and, as income fell, it became necessary to lay off thousands of workers.

Politicians immediately jumped on this to prove that business did not want recovery and charged that the depression was conceived as a political move by business to embarrass the present national administration.

It would be interesting to know how these political economists now explain the fact that just a few weeks before the election, a time when more men should have been laid off to carry such a strategy through, industry found its markets coming back and rehired many of those laid off. The automobile industry alone, which was reputed to be the big bad wolf of the scheme, called back more than 1000,000 workers within a month before the elections.

Perhaps, though, the politicians would prefer that the subject not be raised. It is as difficult for them to explain how it happened that business turned upward in the Spring before the new pump-priming funds could be hauled to the pump.

Why Washington Isn't Dull

The business of the United States Government is the biggest business in the World. It is composed mostly of "little fellows" fixing up confusing plans to make trouble for politicians and heads of Government.

For instance, when you think, and think, and can't sleep through the night, you are just like a Washington brain-truster. You might try to get a job—as such, since the principal requirement is a restless brain. Washington has never been dull in the past five and a half years.

Don't Marry the Boss' Daughter

Times have changed since Prof. Robert Rogers, of Massachusetts Institute of Technology, made his now classic statement to "be a snob and marry the boss' daughter."

Marry the boss' secretary and not his daughter, is the latest advice of the college professors. Prof. R. Gale Noyes, of the department of English at Brown University, gave that advice to one of his classes the other day. He explained:

"The Government is getting all the boss' money, so he'll never give it to his daughter. The secretary, however, has a job."

Trial Balance

After the first Tuesday in November it can be told if the balance of political power in this country is leaning on a shovel.

Trade Speaker

Cordell Hull, United States secretary of state, pleaded for international good will and understanding Tuesday, Nov. 1, when he spoke at a world trade dinner featuring the National Foreign Trade council convention in New York city.

Chinese Invented Paper

The invention of paper is credited to the Chinese. The art is believed to have been carried by the Moors into Spain—thence into Italy, and then to France, Germany, and the low countries, and lastly to England and America.

Starved Rock a State Park

Starved Rock State park, covering an area of 900 acres, stretches for four miles along the Illinois river, 90 miles southwest of Chicago. Its crowning feature is Starved rock, rising 140 feet out of the river.

A Wise Saying

The moderation of fortunate people comes from the calm which good fortune gives to their tempers. —La Rochefoucauld.

The Duomo of Milan

The second largest Gothic cathedral in Europe is the Duomo of Milan. As part of its massive architecture the visitor can count more than 4,000 statues.

Schnurr's classes during the latter's absence following an appendectomy. The Sophomore initiation will be held on Friday night, Nov. 11.

ter, Mrs. M. M. Schnurr, have returned to Milwaukee.

Kenneth Wilbur, a son of Mr. and Mrs. Blair Wilbur, spent from Thursday to Sunday with Mr. and Mrs. Frank Burroughs. Blair and Eugene Wilbur were at Burroughs' for the day, Sunday.

Mr. and Mrs. Paul Ganzlin and Mr. and Mrs. William Boersma returned Monday from a four day automobile trip through northern Wisconsin.

Two days they were guests of Mr. and Mrs. John Beath, at LaCrosse. John Loftus and Carlyle Druce, of Grays Lake, were guests Saturday of Mr. and Mrs. T. C. Loftus.

Mr. and Mrs. T. C. Loftus were dinner guests Sunday of Mr. and Mrs. Walter Rasch at Slades Corners. Glen Pacey who is teaching at Edgerton, was at the Rasch home over the weekend.

Cyril Pacey and Anna Kroncke were in Chicago for the day, Monday, on business.

Mrs. W. Dobyns, McHenry, Erminie and Grace Carey were among the guests at a luncheon at the home of Mrs. J. A. Nolan in Oak Park, Thursday.

Union Free High School. The annual school carnival will be held at the school building on Friday night, November 18.

A program will be held at the school at eleven o'clock on Armistice day and school will be dismissed for the afternoon.

Henry Etterson, of Genesee Depot has been secured to teach Mr.

WILMOT

Mr. and Mrs. Ray Rudolph spent Saturday in Milwaukee, guests of Mr. and Mrs. Henry Betzer.

There will be English services at 9:30 Sunday morning at the Peace Lutheran church with Rev. John Meyer of the Theological Seminary at Thiensville in the pulpit.

Mrs. Flavia Ehler and family moved to their new home in Wilmot over the weekend.

Mr. and Mrs. Ralph Marzahl and children, of Hebron, spent Sunday with the latter's parents, Mr. and Mrs. Paul Voss.

Mrs. William Harm, Mrs. Flavia Ehler and Mrs. H. Frank and children were in Elgin Monday to call on Mrs. Frank McConnell, Jr., and son.

Mr. and Mrs. Wayne Tilton and son and Roger Sherman were dinner guests Sunday of Mr. and Mrs. Carl Carlson at Hebron.

David Kimball has recovered sufficiently from the illness following his accidental fall on the blade of a scythe he was carrying, to be moved from the Elkhorn hospital to the home of his sister, Miss Hulda Kimball, at Genoa City. Mrs. Kimball is staying with him in Genoa City and it is hoped he will be able to be moved to his home in Wilmot in a week or so.

The Quake orchestra will play for a dance to be held at the Oak Knoll school on Saturday evening. The affair is sponsored by the P. T. A. and refreshments will be served.

Virgene Voss was a guest from Wednesday to Saturday of Miss Jessie McKenzie at Big Bend and attended the State Teachers' convention at Milwaukee with Miss McKenzie.

Fifteen men held a shredding bee

Most Used Letters

The letter "e" is used far more often than any other letter in our language and the letter "z" is used the least. In order of frequency, they run as follows: e, t, a, i, s, o, n, h, r, d, l, u, c, m, f, w, y, p, g, v, b, k, j, q, z. If the letter "e" be given a frequency of 1,000, the others have the following frequencies: t, 770; a, 728; i, 704; s, 680; o, 672; n, 670; h, 540; r, 528; d, 392; l, 360; y, 296; c, 230; m, 272; f, 236; w, 190; u, 184; p, 168; g, 168; v, 158; b, 120; k, 88; j, 55; q, 50; x, 46; z, 22.

Smiling and Laughter

In this modern conflict between the smile and the laugh, I am all in favor of laughing. Laughter has something in it in common with the ancient winds of faith and inspiration; it unfreezes pride and unwinds selves in the presence of something greater than themselves; something (as the common phrase goes about a joke) that they cannot resist.—G. K. Chesterton.

Diatoms Explained

Diatoms are single-celled plants of a low order belonging to algae. They are too small to be seen with the naked eye. Under favorable conditions they multiply with great rapidity, one individual being capable of producing a billion within a month. They are of great importance in the economy of nature, as they constitute the basic food supply of the life of rivers, lakes and seas.

Large Auction

Wm. A. Chandler and Chas. Leonard, Auctioneers
On the Olson farm 7 miles west of Zion, 7 miles east of Antioch, 1 1/2 miles south of state line, 1/2 mile north of Rosecrans corner and Rt. 173.

AND THE NEW MERCURY 8 for 1939

The Mercury V-8 Town-Sedan \$934★

MERCURY 8: An entirely new car. Fits into the Ford line between the De Luxe Ford and the Lincoln-Zephyr. Distinctive styling. 116-inch wheelbase. Unusually wide bodies. Remarkably quiet. Hydraulic brakes. New 95-hp. V-8 engine.

Prices begin at...\$894★

• The new cars in the Ford Quality Group for 1939 give you a broad choice. Whichever you choose, whatever you pay, you'll get top value for your money. That is true of the lowest priced car or the highest. All have one important thing in common—inherent quality.

Their quality comes from fine materials, precision workmanship, and from the fact that back of these cars is the only automobile plant

of its kind—where production processes are controlled from iron ore to finished car—and savings passed along as extra value.

Things are happening in the automotive world this year! Nowhere is the advance more marked than in the Ford Quality Group. See our dealers before you buy any car at any price.

Lesson for November 13

THE SACREDNESS OF HUMAN LIFE

LESSON TEXT—Exodus 20:13; Matthew 22:21-22, 38-42.
GOLDEN TEXT—Thou shalt not kill.—Exodus 20:13. Whosoever hateth his brother is a murderer.—1 John 3:15.

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

The sanctity of human life finds its foundation in the fact that God created man in His own likeness and image. Because that is true no man has any right to take the life of another for any cause except at the direct command of God. Only by the orderly process of law for the protection of society and in accordance with the Word of God may there be any such action by man toward man. Both of these truths are declared in Scripture in God's covenant with Noah (Gen. 9:5, 6), which was made possibly a thousand years before the Ten Commandments were given to Moses.

Life is held rather cheaply in our day. Nations count their boys and girls as only so much "war material." Life is destroyed on the highway, in the shop, or in the home. Let us declare again the solemn command of God, "Thou shalt not kill."

I. The Prohibition of Murder (Exod. 20:13).

The word "kill" in this commandment is one which means a violent and unauthorized taking of life, and is therefore more properly translated "murder." Not all killing is murder. A man may kill another entirely accidentally, or he may be the duly constituted legal officer carrying out the law of the land in taking the life of one who has forfeited his right to live because he has slain another. There is also the right of self-defense, be it individual or collective. But these are the only exceptions; let us not attempt to justify any other.

Murder is too prevalent in our land. In 1936 there were 13,242 outright killings—a murder every 40 minutes. The head of the United States secret service estimates that there are 200,000 persons at large in our land who "have murder in their hearts and who will take human life before they die." Also in 1936 there were 37,800 deaths in automobile accidents. Some of these were by unavoidable accidents, but many were really murder because the one responsible drove with defective brakes, dangerous tires, or while he was intoxicated. Add to these the deaths in industry caused by failure to provide proper safeguards or healthy working conditions, and by the exploitation of child labor, and we say again, that we should cry aloud, "Thou shalt do no murder."

II. The Cause of Murder (Matt. 5:21, 22).

The Sermon on the Mount, from which the rest of our lesson is taken, while it "describes the character of the citizens of the earthly kingdom which the Messiah came to set up" and "assumes a class of people already saved, regenerated, and in fellowship with their King" (James M. Gray), does provide fundamental principles for the guidance of the Christian.

In this matter of murder, Jesus cuts right through the outward aspects of the matter and points out that an angry hatred in the heart is the root of all murder. If we hate, we have murder in our hearts. Circumstances may hinder its fulfillment, but the danger is always there until we remove the cause. Just being angry—calling our brother "Raca" (the modern equivalent of which is "nobody there"), and calling him "thou fool," which classifies him as "morally worthless"—these are the three dreadful downward steps to murder. And they begin in anger. May God help those of us who have strong feelings that we may not yield them to the devil in such anger against our brother!

III. The Prevention of Murder (Matt. 5:23-26, 38-42).

Prevention with God means more than putting up a barrier to keep us from killing. He deals with the heart, and thus puts the whole life right. It is not even a question of how we may feel against our brother. If he has sinned against us we are to do all we can to win him. He may be unreasonable, grasping, and unfair. However, the spirit that will win him is not that of retaliation or sullen submission to the inevitable, but rather a free and willing going even beyond what is required.

The full interpretation of this passage is not possible in our limited space. It is clear from other scriptures that it does not mean that wicked and unscrupulous men are to be permitted to defraud and destroy God's people. At the same time, we must not explain away the heart of our Lord's interpretation of this great commandment. Let us seek His grace that we may, like Him, silence by our loving deeds and words even the bitter gainsayers of the gospel.

Once Naval Pride Now War Museum

Old Battleship Oregon Had Epic Part in 1898.

PORTLAND, ORE.—The old battleship Oregon, bulwark of the United States navy 40 years ago, has been given a permanent berth here and turned into a war museum.

The ship has been a favorite ever since it made a sensational cruise around Cape Horn in 1898. It steamed from Puget sound to Cuban waters where it joined the United States fleet and helped destroy the Spanish armada at Santiago. The forced run of about 17,000 miles was made in 84 days, including several stops. Its top speed was 14½ knots.

Never before had a huge steel battleship been driven so great a distance at such speed. Seventy million Americans avidly watched through newspapers the great war craft's spectacular race against time. The patriotic American still is thrilled by the Oregon's heroic part in the sea victory off Santiago. The former pride of the navy now is a relic and small compared with the superdreadnaughts of today. Her displacement of 10,288 tons and length of 348 feet are far overshadowed by the modern Colorado's 32,500 tons and 600 feet. While the Oregon had four 13 inch guns, the Colorado has eight 16 inch guns and a top speed of 21 knots.

The old ship was doomed by the navy to the scrap heap. The Oregon legislature appropriated money to buy it and it was turned over to the state in 1925. The craft was towed to an out-of-the-way spot under a bridge in Portland harbor where it rested almost unnoticed until recently when funds were raised by school children and others to move the old fighter. Recently it was towed to a memorial park a mile up the Willamette river.

Drop Diet Fads, Back to Days of Hearty Eating

CHICAGO.—Americans have definitely abandoned the diet craze of recent years and are on the way back to the "horse and buggy" days of hearty eating, with the average male consuming nearly 10 times his weight annually and the average woman eating slightly more than nine times her weight every year.

This information is shown by a national cross-section survey of urban eating habits made by the John R. Thompson company, national restaurant system, covering in excess of 50,000,000 meals served in 125 restaurants in leading cities of 20 states and the District of Columbia.

Meat, bread and potatoes—the great trinity of American dining—have suffered comparatively little as a result of the diet faddists' teachings, it is shown. Meat consumption, which fell off last year due to a shortage and higher prices following the drought of 1936, is now on the upgrade again.

That dieting now exercises little influence on the average person is further emphasized by a materially increased consumption of pie, cake, pudding, ice cream and other rich desserts, the data disclose. Fruits, vegetables and dairy products have won a generous place in the American menu, but meat, bread and potatoes are still firmly fixed on the throne, the figures demonstrate.

A breakdown of food consumption by pounds shows that the average male adult—figuring him at 150 pounds—eats four pounds of food per day and the average woman—figuring her at 120 pounds—consumes three pounds daily.

Skunks Become Pets of WPA Workers in Nevada

RENO, NEV.—Skunks at the Lehman Caves National monument, Nevada, recently moved in with a WPA crew billeted in a bunkhouse, much to the consternation of the original tenants. After a preliminary barrage, however, the new occupants settled down and behaved themselves so well that they were no longer objectionable.

Except for their extreme inquisitiveness, the little mammals do not conduct themselves much differently from domestic cats, according to the WPA crew. But their curiosity is inordinate. The cook complained that one or more kept him under surveillance every moment while he was on the job. Another man, who occupied a small cabin, reported that the skunk that shared it with him had a regular peephole in the wall, through which it watched him every moment.

Painting Turtles Yields Big Profits in Louisiana

SCHRIEVER, LA.—Turtle painting has become more than just a fad in Louisiana. It has grown into an industry. One family alone paints and decorates the shells of 200,000 turtles annually and ships them to Northern novelty stores.

The turtle-painting season starts when millions of turtles hatched in the swamps begin to swim around and climb on logs and overland. They are caught by the hundreds by small boys wishing to earn pocket money, and sold to painters.

The turtle is not allowed to go near water for three days, then given two coats of bright paint, then a design is painted on the shell and a coat of shellac follows. The turtle is then packed in wet moss in an individual box and shipped.

They Shine for Navy, Duke and Notre Dame

Playing in three important football games Saturday will be, left to right: I. F. Fike, Navy end in the Navy-Columbia game; Co-Captain Eric (Red) Tipton, Duke halfback in the Duke-Syracuse tussle; and Benny Sheridan, Notre Dame back, playing against Minnesota's vaunted Gophers in one of the day's biggest games.

TREVOR

Milton Patrick with A. Collins, Antioch, attended the football game between the Packers and Bears in Chicago on Sunday.

Mrs. Champ Parham was employed in Twin Lakes most of last week.

Mrs. Luanah Patrick, Milton Patrick, Hiram Patrick and Sarah Patrick were entertained at the Byron Patrick home on Monday evening, honoring their son, Robert's birthday anniversary.

Miss Edith Zarnstorff, near Richmond, spent Tuesday evening at the Charles Oetting home.

Mr. and Mrs. Charles Sibley, Antioch, visited their sister, Mrs. William

Evans and family Tuesday.

Clarence Runyard Chicago, spent the week-end with his mother Mrs. Nellie Runyard, and brothers, Wilson and Stanley.

The Willing Worker will meet with Mrs. Jacob Drom, Antioch, on Thursday afternoon.

Mrs. William Kruckman, Burlington, spent Sunday with her father, Hiram Patrick.

The Trevor school children enjoyed a vacation Thursday and Friday, their teacher, William Fox, attending the teachers' convention in Milwaukee.

Mrs. Charles Oetting and son, Fritz, Mrs. Joseph Smith and Miss Sarah Patrick motored to Elkhorn Thursday where they called on Mrs. Nellie Bar-

hyte, Dave Kimball and James Webb at the Walworth County hospital, where the latter two are patients.

Mrs. Irving Elms, Antioch, visited her aunt, Mrs. Joseph Smith, Wednesday afternoon.

Charles Oetting accompanied Chas. Barber and Eugene Frank Paddocks Lake, to Mayville, Wis., to hunt ducks on Friday.

Frankie Derler and Russell Longman attended a football game at Evanston Ill., on Saturday.

Mrs. Jessie Allen and daughter, Eloise Allen, accompanied Glen Pacey of Slades Corners to Milwaukee Friday.

Mrs. Alfred Dahl left Sunday evening for a week's visit with a sister in Wiborg, South Dakota.

A number from Trevor and vicinity attended a card party and dance at the Novacek Hotel, Camp Lake, sponsored by the Eastern Star members of the Wilmet chapter.

Sunday visitors at the A. J. Baethke home were their sons and their families, Mr. and Mrs. Walter Baethke and children, Antioch, and Mr. and Mrs. Arthur Baethke and children, Maywood Illinois.

First Steamboat on Lake Erie

The Walk-in-the-Water, first steamboat on Lake Erie, was able with its wood-burning engines to step along at the rate of eight miles an hour. Named after a Wyandotte chieftain, the boat was the sensation of her day—during the period of more than 120 years ago.

May Have Invented Ice Cream

Nero is often credited with inventing ice cream, by mixing fruit juices with mountain snow.

Last Mummy Made in 700 A. D.

Egyptian mummy-making ceased about 700 A. D.

CHRISTIAN SCIENCE CHURCHES

"Adam and Fallen Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, November 6.

The Golden Text was, "He that is of the earth is earthly, and speaketh of the earth: he that cometh from heaven is above all" (John 8:31).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "In the beginning God created the heaven and the earth. And God said, Let us make man in our image, after our likeness: So God created man in his own image, in the image of God created he him; And God saw every thing that he had made, and, behold, it was very good" (Gen. 1:1, 26, 27, 31).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "With a single command, Mind had made man; both male and female. How then could a material organization become the basis of man? How could the non-intelligent error be the medium of Mind, and error be the reflection of Spirit, yet God is reflected in all His creation" (P. 524).

Sunday School Board meeting the fourth Tuesday evening of each month.

Armistice Service a Success

A well filled church greeted the pastor of Antioch Methodist Church for the Armistice Service last Sunday morning. The American Legion, Ladies Auxiliary, and Sons of Legionnaires were represented by approximately three times as many as a year ago. This indicates a growing spirit of cooperation between the church and these organizations. "Peace on Earth, good will to men," was chosen as a text for the sermon. Emphasis was placed on universal peace as a requisite for the highest human good.

Mrs. Wood to Address Forum at High School

The High School Forum has secured Mrs. Margaret Wood of Illinois State Department of Health for its next meeting, Thursday evening, Dec. 15.

Mrs. Wood will be at the High School during Wednesday, Dec. 14, and Thursday, Dec. 15. She will discuss the problems of youth with the student body as a whole and in smaller groups, and will meet the parents on Thursday evening for a discussion of these problems. Mrs. Wood spoke before the students two years ago, and at that time she was voted the most popular speaker ever to have appeared before them.

Five hundred persons are expected to be present at the meeting on Dec. 15.

Miss Drom to Attend School of Pharmacy

Miss Edna Drom, who has been employed as a clerk at Reeves' Drug store here for the past 10 years, left Monday to enter the Hynes School of Pharmacy in Chicago.

Purchases Guernseys

E. H. Ravenscroft of Antioch has purchased two registered Guernsey cows from Mervin Eby, Elkhart, Ind. The cows are Lookwell Wonder Girl 519377 and Lookwell Madge 496503, according to the American Guernsey Cattle club, Peterborough, N. H.

Personals

Mr. and Mrs. O. E. Hachmeister and Mrs. Arthur Trieger and son, Ralph, spent Sunday in Congress Park with Mr. and Mrs. Richard Kennedy.

Mr. and Mrs. C. E. Hennings transacted business in Chicago Monday.

Mrs. W. J. Bennett spent Tuesday in Chicago.

Mr. and Mrs. William Kufalk and daughter, Ruth Eleanor, spent Sunday in Aurora with H. F. Meyers and family.

Mrs. Charles Zapp expects to return to her home at Lake Marie next Thursday from Michael Reese hospital, Chicago, where she has been ill for the past four weeks.

Miss Louise DeMeyer, Gurnee, who will become the bride of Robert F. McShane Saturday, was honored at a linen shower given by Mrs. Robert Cawthorne, Waukegan, Thursday. Twenty-five guests were present.

James E. MacDonald, Grayslake, has been a medical patient at St. Therese's hospital in Waukegan.

Mrs. Della Maas has been a patient at St. Therese's hospital in Waukegan. Mr. and Mrs. H. A. Radtke left this morning for Dallas, Texas, where they will spend the winter with their son-in-law and daughter, Mr. and Mrs. H. C. Carey.

Mr. and Mrs. Charles Lux are leaving this evening for Pittsfield, Ill., where they will visit relatives during the week-end.

Mr. and Mrs. Ed Koch and daughter, Irene, and Mr. and Mrs. W. N. Kirth of Chicago were guests of their cousin, Mrs. Andrew Lynch, Sunday.

Mmes. Arthur Johnson and Edward Olson and son, Gene, were guests of Miss Mary Dorsey and Mrs. Theodore Dooper Friday.

Mrs. Mattie Weinman of Chicago was the guest of Mr. and Mrs. Sol LaPlante over the week-end.

Mr. and Mrs. Hanford E. Shepard and children and Mr. and Mrs. Robert Wood and daughter were calling in Antioch, Sunday.

James Dorsey of Kenosha was a caller at the Theodore Dooper home Sunday.

Sidney Hughes of Illinois Wesleyan University spent the week-end with his parents, Mr. and Mrs. Carl D. Hughes.

Miss Mary Dorsey and George Nelson were guests of friends in Elgin Sunday.

Jake Kubs returned home Friday from a week's visit in Wisconsin with his daughter, Mrs. Raymond Sour at Maribel, his sisters, Mrs. Frank Kugel and Mrs. W. Zeman at Lena and Antigo, and his brother, John Kubs and family at Colby.

S. Bover Nelson attended a Home Owners' Loan corporation school for contract property management brokers of four counties Wednesday in Highland Park. About 400 were in attendance.

The Misses Vera and Banks Quigley of Atlanta, Ill., will be the guests of Mr. and Mrs. William Kufalk from Friday to Monday.

"GIRLS' SCHOOL" IS COMING TO CRYSTAL THEATRE NEXT WEEK

Ladies Aid Will Sponsor a Feature Show Depicting Young Love

"Girls' School," a feature show depicting young love and romance, is coming to the Crystal theatre on Nov. 15 and 16 under the sponsorship of the Antioch Methodist Ladies Aid Society, committee members of that group announced today.

When hearts are young and June moonlight bathes a magnolia-scented campus at graduation time, is it any wonder that 17-year-old girls become thrilled with the aura of romance? That is the question "Girls' School" is reported to answer tenderly and dramatically in the film version at the Crystal next Tuesday and Wednesday nights.

Ann Shirley, Nan Grey and Ralph Bellamy have the leading roles. Ann is working her way through school. Nan is a snobbish young senior, whose indiscretions almost result in her expulsion. The conflict between the two with its undertone of adolescent jealousy makes a brilliant picture.

Name Seal Committee

Members of the Christmas Seal committee for 1938 announced by Dr. E. H. Smith, Libertyville, president of the Lake County Tuberculosis association, are Max Kohner, Libertyville; Dr. J. A. Ross, Waukegan; Mrs. George Childs, Highland Park, and Harry A. Hall, Waukegan. Edward L. Baker, Lake Forest, is chairman.

THE EFFECT OF EYESTRAIN

Eyestrain, whether due to farsightedness, nearsightedness, astigmatism, or imbalance of eye muscles, may show its effect in certain parts of the body quite remote from the eyes. For instance, if farsightedness is uncorrected it may cause irritability, insomnia, indigestion, sties, headache, listlessness, undue fatigue of mind and body, and many other such conditions.

Young People's Rally Will Be Held at Zion

Young people's groups of Antioch and vicinity have been invited to attend a county-wide young people's rally to be held in Grace Missionary church, Zion, on Sunday, Nov. 13, beginning at 2:30 p. m.

Mrs. F. F. Bosworth Chicago, wife of the internationally known radio preacher and evangelist, will be the principal speaker.

Musicians from all churches in the

county desiring to play in the mammoth orchestra that will be heard for 20 minutes prior to the service are being urged to meet at the Zion church at 2 o'clock for a brief rehearsal. A number of singers will accompany Mrs. Bosworth and will be heard in the program. Mayor Richard F. Hire of Zion, who is also concertmaster of the Waukegan orchestra, will give a violin solo.

Dr. E. J. Lutterman left today for Iowa where he will spend ten days as the guest of friends and relatives.

WILD RICE IS PURCHASED BY ROD, GUN CLUB

To Be Planted in Lakes as Part of Club's Wild Life Conservation

Twenty-four pounds of wild rice have been purchased by the Antioch Rod and Gun club for planting in various lakes near here, it was revealed at a "Sportsman's Rally Day", held Monday evening in the High School auditorium.

The purchase is a part of the club's conservation plans for providing supplies of natural food for game birds in the lakes region.

Samples of mud from the bottoms of lakes and streams in the vicinity of Antioch were sent to Oshkosh, Wis., by R. H. Childers of the Rod and Gun club, and were pronounced favorable for the growing of the wild grain.

Grass Lake was at one time noted for an abundant growth of wild rice, it has been pointed out. The belief has been held that this crop's decline in Grass Lake has been due to the prevalence of carp there. The club plans to plant the grain in water where carp are less numerous.

Motion pictures of game birds were shown during the evening, and refreshments were served.

A "visitors' night" was observed, each member being privileged to bring guests on this occasion.

The club's membership is gradually increasing toward its 1,500 goal, and now numbers some 200.

SCHOOL NEWSPAPER MAKES APPEARANCE

First Issue of "Traveler," Grade School Publication, for Year, Comes Out

The first issue of the Antioch Grade school student newspaper for this year has just been issued. The publication, which last year was known as the "School Hi-Lites," is this year passing under the name of the "Antioch Grade School Traveler."

It is written and published by the eighth grade pupils and is published every six weeks. Stencils for the paper's 10 pages are cut in the school office and are run off by the pupils on the school's mimeograph machine. Containing current news, announcements of future activities, sport reviews, news of the various rooms, features, and original writings and poems, the paper is an attractive little sheet. This issue is brightened with sketches of Thanksgiving turkeys on the front page, and other illustrations are used for various departments.

The Antioch school paper was first founded by the principal, R. E. Clabaugh, on Dec. 22, 1933, under the title of the Antioch Grade School News. It was later discontinued for a time, and was resumed at the request of the students in March, 1937.

The present student staff consists of Carol Waters, editor; Jerry Hogan, assistant editor; Ervin Nevitt, room news editor; Bud Maplethorpe, music and art; M. Matthes, feature, "Do You Know That?"; Mary Zender, cartoonist; Dale Barnstable, boys' sports; T. Hennings, girls' sports; Doris Strang, literary editor; Alice Fox, jokes editor; Bill Lubkeman, inquiring reporter.

Wilmot Masonic Lodge to Observe Golden Jubilee

The Wilmot Lodge of Masons No. 241 F. A. M. is to observe its golden jubilee on Thursday evening at the lodge hall. A committee of three members, Charles Freeman, John Sutcliffe and Elmer Loth, is in charge of arrangements. Attorney G. Middlestadt, of Kenosha has been secured as speaker for the evening and will give a resume of the history of the lodge. The members expect to entertain two hundred, as the affair is open to the public and many neighboring lodges have been invited to be present. Refreshments and entertainment will be provided.

Sons of Legion Will Sponsor Movie Nov. 21-22

The motion picture, "Sons of the Legion," will be sponsored by the local post, Sons of the American Legion, Monday and Tuesday evenings, Nov. 21 and 22, at the Antioch theatre. The cast of the picture includes Donald O'Connor, Billy Lee and Lynne Overman.

Antioch Grade School Conducts "Open House"

Thirty-four parents attended the "Open house" held by the Antioch Grade school Tuesday in observance of National Education Week. The parents visited classes and observed school procedure during the day.

August H. Wehrenberg, Libertyville, is a patient at St. Therese's hospital in Waukegan.

GIRLS' MEET IS ATTENDED BY 225

Warren and Libertyville H. S. Students Come Here for Conference

Two hundred and twenty-five girls from Warren, Libertyville and Antioch Township High schools attended the fourth annual Tri-School Girls' conference here all day Saturday.

About 20 mothers also were present as invited guests to hear a talk by Mrs. Edith Foster Flint, professor emerita at the University of Chicago, at 10:30 o'clock.

"If you really want culture, you'll find you have to work hard for it," Mrs. Flint told the audience in her talk, "We Want Culture!"

"There is no easy road to culture," she warned her listeners, giving them advice on some of the better ways to secure it.

The attendance at this year's conference was slightly larger than in preceding years. Some unusually interesting discussion groups on topics of interest to girls were among its features, and a luncheon was served at the high school during the noon hour.

Miss Helen Exley, of the Warren High school; Miss Margaret Jorgensen, Libertyville, and Miss Cornelia Roberts of Antioch acted as deans of the gathering.

Janice Kapple, Antioch, was president of the conference.

Grayslake Man Dies in Accident in Wisconsin

James McMullen, Grayslake, was killed instantly in an accident which occurred Sunday evening on Highway 75 near the Kenosha-Racine county line in Wisconsin when his automobile skidded on a curve and crashed into a tree.

A coroner's inquest was held Monday in Kenosha and the body was then moved to Chicago for funeral services and burial.

McMullen, who was 45, was employed in Chicago as a paper cutter. He is survived by his wife, Mrs. Sylvia McMullen, and daughter, Dorothy.

McMullen was alone in the car at the time of the accident.

P. T. A. TO HEAR PROGRAM MONDAY

Book Review, Talks, Music Will Feature Evening Meeting at School

"Available Books, Radio Programs and Magazines Which Help Parents" is the general title for the program to be presented at a meeting of the Antioch Parent-Teacher association Monday evening, Nov. 14, at 8 o'clock, in the graded school.

Mrs. W. C. Petty is to review Ernst Groves' book, "Understanding Each Other."

A list of books that may be secured at the school or the library on child problems will be presented by Miss Margaret Fitzgerald.

Miss Aileen Wilson will give a talk on work that is being done in newspapers, magazines and over the radio by the P. T. A.

Vocal numbers by Mrs. Fern Lux and Miss Marion Johnson will be a special feature of the program.

The general theme for the Parent Teacher association's program this year is "Planning Home and Leisure Time Activities," and Monday evening's program will be in line with this.

Mrs. J. B. Fields, Mrs. Joseph Patrovsky and R. E. Clabaugh are on the committee.

A meeting of the P. T. A. Study group has been announced for Tuesday evening, Nov. 15, at the school.

Move James Webb to St. Therese Hospital

James Webb, who was badly injured Sept. 3 in an automobile accident near Elkhorn, Wis., in which his wife was killed, was moved from the Walworth General hospital there to St. Therese's hospital in Waukegan Saturday. His condition is said to be slowly improving. Webb suffered a spiral fracture of the right leg and other injuries.

"Paper Is Credit to Editor," Says Former Resident

"Having been away from Antioch for about twenty years, I have derived a great deal of pleasure as well as information from the Antioch News."

"I feel that the paper is a credit to the editor, and may it always continue so."

"Dr. F. M. S., Chicago."

—So writes a former resident of this village, asking to have his subscription renewed for yet another year. This heartening missive is typical of many comments that have come to the editor of the Antioch News in the mail recently.

Antioch News Has "Coast-to-Coast" Circulation Range

Although the Antioch News has as its main aim that of being a good "community newspaper" (nine out of ten families in the village and vicinity are among its readers), it is interesting to note that it also travels literally from "coast to coast" to carry news of the communities it serves to former residents, former visitors who wish to keep up their ties of acquaintanceship, and others who have become interested readers.

Far western copies go to Peshastin, Wash.; Portland and Pendleton, Ore.; Friday Harbor, Wash., and to New Hall, Ocean Beach and Los Angeles, to mention a few California addresses.

In the east, New York has many subscribers, but bows to Florida, where Roseland, Daytona Beach, Fort Lauderdale, Miami Beach, Lynn Haven, Eau Gallie and Leesburg are some of the cities represented.

Albuquerque, N. Mex.; Foley, Ala.; Union, Mont.; Lucy, Tenn., and Yuma and Tucson, Ariz., are others of the more distant points to which the paper goes.

States included in the subscriber list, besides Illinois and Wisconsin, are Missouri, Michigan, Minnesota, Ohio, Tennessee, New York, Florida, Montana, Pennsylvania, Colorado, Alabama, New Mexico, Arizona, Wyoming, California, Washington and Oregon.

Nearby towns, cities and villages to which the Antioch News goes include Lake Villa, Russell, Fox Lake, Richmond, Woodstock, Oak Park, Libertyville, Evanston, Barrington, Grayslake and North Chicago in Illinois. Also Deerfield, Des Plaines, Mr. Prospect, Wadsworth, Round Lake, Morton Grove, Zion, Gurnee, Belvidere, Harvard, Carpentersville, Spring Grove, Lake Forest, Wauconda, Ingleside, Franklin Park, Berwyn, Dundee, Bloomington, Cicero, Wadsworth, Highland Park, River Forest, Westwood, Wilmette, Hebron, Wauconda, Rockford, McHenry, Dixon, Riverside, DeKalb, Glenview, Carmi, Watonville, Quincy, and Springfield.

In Wisconsin—Salem, Wilmot, Trevor, Bristol, Burlington, Union Grove and Burlington are on the list. Also included among cities scattered through the Wisconsin subscriber roster are Chetek, Franksville, White-water, Kansasville, Milwaukee, Beloit, Downing, Mercer, Mather, Mondovi, Wisconsin Dells, Madison, Green Bay, Lake Geneva, Winter, Janesville and Camp Lake.

Chicago heads the list of "out-of-the-community" subscribers with Kenosha and Waukegan as close rivals with the Windy City.

Garden Awards
Twelve Barrington school children have been presented awards in a garden planting contest sponsored by the Barrington Garden club this year. Taking part in the contest were 192 boys and girls.

Hold Services
Funeral services for Mrs. Martha Safford, Wheaton, Ill., formerly of Millburn, were held last week.

Antioch and Loon Lake Cars Collide; 4 Burned

Mrs. Rose Tarnowski, 37; her sons, Bert, 17, and Hugh, 15, of Loon Lake and Frank Mushell, 54, Chicago, a guest of the Tarnowskis, were badly burned when their automobile caught fire after a collision on Diamond Lake road off Route 54, near Mundelein.

The car in which they were riding collided with one driven by H. Wolf, 50, of Antioch.

The automobiles skidded across the road into a ditch from the force of the crash and the gas tank on the Tarnowski car exploded.

All of the injured were taken to St. Therese's hospital in Waukegan. Mrs. Tarnowski is reported to be the most seriously injured. Wolf suffered a cut face.

Win Typing Awards at College of Commerce

Bernice Sherman, Antioch, was among the winners of bronze pins in a typing contest conducted by the Lake College of Commerce at Waukegan recently.

Other winners included Kenneth Chamberlin, Libertyville; Evelyn Clinge, Barrington; Ann Ferguson, Harvey, and Franz Young, Lake Zurich.

Green Gables "Gay '90's" Furnishings Are Admired

Reminding one of the days of the "Gay '90's" are the 52-foot bar of shining mahogany and walnut, the gleaming mirrors and cabinets of sparkling glass at the newly re-decorated Green Gables night club in Kenosha.

Installation of an indirect lighting system and other improvements have just been completed by the proprietor, Nicholas Stavrakas (known as "Nick" to his friends), who has made it a point to furnish his patrons with the best in food, wines and liquors.

Orchestra music is provided every evening except Monday and Tuesday.

J. C. JAMES

Kenosha Woman, Born at Long Lake, Dies Aged 75

Mrs. Julia Hastings, 75, who was born at Long Lake but had for the past 26 years made her home in Kenosha, died there Friday. She was a daughter of the late James and Margaret Dunn. Surviving are her sons, Emmett Hastings, Waukegan, and Clarence Hastings, Kenosha; two daughters, Mrs. Winnie Sherry of Waukegan and Mrs. George Oglesby, Kenosha; eight grandchildren and two great-grandchildren.

H. S. Basketeers to Meet Richmond Here Tuesday

Antioch high school basketball fans are looking forward to the team's first game of the season, next Tuesday evening with Richmond, in the gymnasium here.

The next opponent on the schedule is Wauconda, here on Dec. 2.

Grade School Students Make Visits to Museum

Third grade pupils at the Antioch Grade school are making an excursion to Chicago today to see the Indian exhibit in the Field museum.

On Wednesday, Nov. 16, the seventh and eighth grades will go to Chicago. The seventh grade will spend the day at the Field museum. The eighth grade plans to visit the Rosenwald museum and to visit the National Broadcasting company station at the Merchandise Mart afterward.

Fifth and sixth grade pupils at the school attended a lecture on "Pioneer Life, Primitive People and Early Civilizations" at the Field museum Monday. After the lecture they visited the aquarium.

First to Fight Cruelty
England was the first country to form societies for the prevention of cruelty to animals.

FARM TOPICS

CAN NOW MAKE HAY IN RAINY WEATHER

Modern Methods Are Used In Making Green Silage.

By Clarence H. Parsons, Superintendent Massachusetts State College Farm, WNU Service.

How to make hay in rainy weather is a trick that has been solved on many dairy farms during the past few years. Modern methods of making green grass silage have done away with the need for long curing in the field, and the resulting product is high in valuable food elements and appetizing to the cows. Dairymen have been experimenting with this new method of making grass and clover silage for several years and the state college has also given it extensive trials. Up to the present time, corn has been the standard silage crop of the Northeast, but on many farms grass and clover are easier to grow, the yields are as high as those of silage corn, and protein content of the resulting silage is higher than that of corn silage.

Grasses and clover are low in sugar content and for this reason it was difficult to bring about desirable fermentation in the silo until investigators found that the addition of cheap molasses brought about this result. The molasses is added to the grass and clover as it is fed into the cutter. On the college farm 40 to 60 pounds of molasses are added to each ton of grass. Where alfalfa is put up about 75 pounds of molasses to the ton is used. Silage put up in this manner last year came out of the silo sweet and in excellent condition, and the herd responded favorably to it.

Grass silage is best when the crop is cut in a young and tender stage. If it becomes mature and woody, it makes poor silage.

Feed Hoppers Are Urged For the Young Pullets

Healthy growing pullets require large quantities of feed, and the best growth can be made only when the birds have free and continued access to the feed. For this reason, advises a writer in the Montreal Herald, we recommend at least three 5-foot mesh hoppers 4 to 5 inches deep, feeding from both sides, for each 100 birds, during the early part of the summer. These hoppers should be filled daily with fresh mash, and should never stand empty. On the other hand, if they are filled too full there may be a waste of mash. To overcome this difficulty a strip of lath may be nailed along the top of the outer edge, so as to form a lip and prevent spilling.

To prevent soiling the feed, a revolving pole or reel of laths is fastened just above the level of the feed and secured to the raised ends of the hopper. For outdoor feeding, much labor can be saved by using large weatherproof, self-feeding hoppers. These are built with a solid roof or lid covered with tarpaper, which extends out beyond the feed trough on each side of the reservoir, and thus protects it from rain. These feeders may hold 100 to 200 pounds of mash, and thus require little attention in filling. A pullet will eat about 20 to 25 pounds of feed from the age of six weeks up to maturity.

Gasoline, Kerosene Dangers

Gasoline and kerosene have caused a loss of approximately \$6,000,000 a year on the farms of the United States, according to the bureau of chemistry and soils of the United States Department of Agriculture. They are sixth among the causes of farm fires and are responsible for 5 to 7 per cent of the total loss each year. Ignorance and disregard of the explosion hazard of gasoline and kerosene are responsible for most of these fires, says a bulletin. The vapor of gasoline is so highly explosive that it has been called "liquid dynamite." It is dangerous to use gasoline for dry cleaning in the home. It may explode from even a tiny spark of static electricity produced by rubbing the clothing being cleaned. Although not so inflammable as gasoline, kerosene also gives off vapors which may be easily ignited. Neither should be used to start a fire in the house.

Farm and Feed Lot

Matured sugar cane contains 18 per cent sugar.

In hot weather the hens need plenty of water, often renewed.

Soils become acid because the lime is used by crops and carried away in drainage water.

Legume hay and legume pasture are fine for growing colts. These nutritious roughages make it unnecessary to feed grain to colts.

Legume hay as part of the roughage helps to keep horses in good health and flesh, says E. T. Robbins, live stock extension specialist, College of Agriculture, University of Illinois.

Lights of New York

by L. L. STEVENSON

A big man is John J. Sheehy, principal keeper at Sing Sing prison, who has been in the service of the state for 25 years. He's 6 feet 2 inches tall and weighs 318 pounds. His hands are in keeping with his size and weight. They have been compared to hams. Also to pile drivers. As principal keeper, Sheehy's duties are equivalent to those of chief of police of a small city. But no police chief in a city small or large has to handle a population equivalent in toughness to that which constitutes Sheehy's domain. In those 25 years of service he has come into exceedingly close contact with more than 30,000 criminals varying from petty thieves to men so desperate that they would stop at nothing. In all those years and with all those associations, he has never had to use a weapon. Perhaps the size of his fists has had something to do with that.

One of the duties of the principal keeper—known through the prison as "P.K." or "Dep"—is to take condemned men to the electric chair. Sheehy hates that task since he hates electrocutions. Yet he has traveled that last mile with more than 300 persons. That's held to be a world's record. But while leading men to their death is bad, leading women along that short, grim journey is even worse. Yet that too is a part of the duties of Sing Sing's principal keeper. In the last quarter of a century, Sheehy has walked the way of death with four women, Mrs. Ruth Snyder, Mrs. Anna Antonio, Mrs. Eva Coo and Mrs. Mary Creighton. The four had taken human lives. Nevertheless, the giant Sheehy flinched at the task the law said was his—but went through with it.

Turning to a more cheerful topic, there is Roy Moulton, managing director of the Hotel Piccadilly who is the unofficial postmaster of just about all the radio musicians of the country. Each week he receives hundreds of letters addressed, "In care of Roy Moulton" and each one of these letters reaches its proper destination. It started back in 1929 when Mr. Moulton was manager of another New York hotel. Dan Gold, Mt. Carmel, Pa., a friend, wrote that he would like to get in touch with a certain sax player and enclosed a letter for him. As Moulton knows the whereabouts of hundreds of musicians, the letter reached its destination the next day. A Broadway columnist picked up the story and thus Moulton became the musician's postmaster.

Musicians having made their entrance, there is Kay Kyser who has a record unique for these days of constant reshuffling of bandsmen and singers. Half of his aggregation has been with him since his college days and one of them, Sully Mason, singer, has been with him 11½ years, having been the first man hired by Kyser. His arranger, George Duning, is another "original" with almost as many years to his credit. He has done all Kay's arranging for five years. Previous to that he played a trumpet in the orchestra.

Next comes Lucille Manners, who has discovered an autograph seeker who is willing to indulge in a bit of bribery to obtain a flock of signatures of celebrities without personal contact. The autograph hunter is a Harlem laundress and her proposition was to do Miss Manners' laundry free in exchange for five signatures weekly of stage, screen and radio stars.

Now Billy House, corpulent comedian, who is also a song writer. Unable to play any musical instrument, he writes his lyrics, then devises a tune to go with them by beating out a rhythm on a table top and singing the words. He repeats the tune until he has memorized it. All the songs and verses he uses in his show are original. And I started with Sing Sing and end up singing.

Ancient Span'sh Fort In Puerto Rico Is Torn Down

SAN JUAN, PUERTO RICO.—Picks and shovels of 7,000 WPA workers have succeeded in doing what the cannons of Sir Francis Drake, the Dutch and pirates tried in vain to do for centuries. It took a labor army to batter down the fortification of El Morro, formidable sixteenth century fort at the entrance to San Juan harbor, for the first time in its long history. Working under the direction of officers of the Sixty-fifth U. S. Infantry the labor army has torn down several hundred feet of the massive battlements which rise in some places 100 feet over the sea and are 10 to 30 feet thick. The work is being done with an appropriation of \$573,000 from the war department to restore the ancient forts which surround this old city on the Spanish Main.

In addition to the seawall at El Morro, the relief funds allocated to the work are being spent to restore ancient sentry boxes atop the battlements; repair military roads, hospitals, and officers' and enlisted men's quarters within the walls of the fort. An ancient monastery and subterranean tunnels are also coming in for attention.

'Sub' Is Jekyll And Hyde of Sea

Not Always Wartime Aggressor, It Serves Science And Commerce.

WASHINGTON.—The recent announcement by Spanish Loyalists of the opening of a submarine mail route between Valencia and Barcelona—separated by a land wedge held by Insurgents—reminds a contact-conscious world of increasing possibilities in undersea transport.

"The submarine, generally feared as death's agent at sea, is not always a wartime aggressor," points out the National Geographic society. "It has served science, navigation, and commerce—and even Cupid, as a messenger bearing letters and gifts."

"During the months preceding America's entrance into the World war, stories of merchant submarine activity frequently made the headlines."

"Today, scientists and explorers, finding few blank spots left on the earth's surface, are diving underseas. Sent to Caribbean waters last year, the third submarine expedition of the U. S. navy department returned with valuable information on forces of gravity, general depth findings useful for navigation, and new features of the ocean floor, including a submerged mile-long mountain ridge, three ancient volcanoes, and a deep ocean valley north of Puerto Rico. In geophysics, the submarine is specifically useful in determining the earth's weight."

In Arctic Exploration. "In the field of Arctic exploration, Explorer Vilhjalmur Stefansson advocated as far back as 1918 the practical use of submarines as polar 'floating laboratories.'"

"The Wilkins-Ellsworth submarine expedition to the North pole in 1931 was not successful, but Sir Hubert Wilkins is now working on plans for a specially constructed submarine in which to make the trip next year."

"In connection with its extensive northern program, Soviet Russia, according to a news report published in that country, is interested in a similar project under polar ice."

"Eventually, experts in the field predict, submarines will be widely used not only as deadly navies in war but on regular trade and passenger routes in peace."

"Thanks to modern inventions that permit submarines to see, dive, and steer, as well as afford some comfort to their crews, the submarine today is very different from the crude early ships in which men experimented and died."

"The first known submarine boat, invented in the sixteenth century, was little more than a covered barge, with a hollow mast running through the center up to the water's surface to admit air."

"Several decades later, King James I successfully submerged in the Thames by means of a craft evolved by a Dutch physician and described by his contemporaries as 'an ordinary large rowboat, decked over with stout greased leather.'"

Improvements Follow. "As improvement followed improvement, submarines were built to run by steam; later by two sets of machinery, an oil Diesel engine for surface navigation and electric motors for undersea driving. Within the last two years a single power plant for both purposes has made modern submarine history."

"Before the periscope was perfected, submarines rose and dipped like whales in order to see what they were about, one of the early craft being called 'The Intelligent Whale.' Today, they not only 'see' below water, but talk as well, following last year's first successful demonstration of radio broadcasting from a fully submerged boat."

"Contrary to general belief, the World War did not see the first submarine attack. In 1776, a Continental one-man submersible attempted to plant a bomb in the hull of a British ship in New York harbor; the bomb, however, exploded harmlessly."

"Undersea craft were tried out in the War of 1812, and again when the Danish blockaded the German coast in 1850. It remained for the American Civil war to finish the lesson. Although the price paid in life and lost ships was heavy, the Confederate 'Davids' (so called because of comparison in size with Federal 'Goliaths') finally proved to the world that undersea vessels could effectively damage and sink enemy craft."

Woman Is Saved From Death by Neatness

DALLAS, TEXAS.—Mrs. Lawrence Genaro, wealthy widow, probably owes her life to her neatness. Returning home from a trip, she found her automobile had become dusty from standing on the driveway at the side of her home.

She ordered a servant to wash the automobile without moving it. It later was discovered that the washing had dampened a dynamite stick attached to the engine by unknown persons. The water prevented it from exploding.

HICKORY

Mrs. Chris Paulsen spent Wednesday with her mother, Mrs. Andrew Pedersen, in Waukegan. Mrs. Pedersen left for Florida on Sunday with some friends who are driving down. She expects to be gone several weeks.

Saturday morning Harrie Tillotson, daughter, Caryl, and August Moskey left for Birnamwood, Wis. Caryl is staying there to visit at the home of her friend, Marcella Krueschel, for several weeks. The men then went on to Owen, Withee and Maplewood, Wis.

Mr. and Mrs. Oscar Preston and three sons, of Channel Lake called on the Tillotson family last Tuesday afternoon, Nov. 1.

Dr. A. J. Stokes and Theodore Kessler of Chicago called at the Tillotson and Thompson homes Wednesday afternoon, Nov. 2.

Frank Salisbury of Waukegan was a caller at the Max Irving home Sunday afternoon.

Mr. and Mrs. Chris Paulsen and three daughters were Sunday dinner guests at the home of Mr. and Mrs. Alec Kramer in Waukegan.

Mr. and Mrs. Hugo Gussarson and family visited at the Wilbur Hunter home in Mundelein Sunday afternoon.

Mr. and Mrs. George Olsen of Waukegan were guests for Sunday dinner at the Max Irving home in honor of Glen Irving's fifth birthday anniversary which falls on Monday, Nov. 7.

Mrs. George Anzinger and Mrs. Nettie Wells spent Friday with relatives in Waukegan.

Miss Elizabeth Hughes and Miss Marjorie Crowley drove to River Forest Thursday morning. Miss Dorothy Hunter joined them there and they

THE ANTIOCH NEWS

ANTIOCH, ILLINOIS, THURSDAY, NOVEMBER 10, 1938

HOW the RED CROSS SERVES the NATION

FLOOD HAVOC—Unprecedented rains brought dry river beds to flood stage in Southern California, and Red Cross aided thousands of persons whose homes were swept away, as shown here.

A DAY BRIGHTENED—Red Cross nurse's visit to a shut-in brings healing touch.

HELPING HANDS—Thousands of women volunteers make possible Red Cross services; Norman H. Davis, new Chairman of Red Cross, thanks a group of loyal workers.

YOUTH SERVES—Junior Red Cross boys and girls view nations on world map where children cooperate for good will.

STAND BY FOR RESCUE—A trained First Aider in Red Cross Highway First Aid Station prepared to aid the injured.

A YEAR'S RECORD

July 1, 1937—June 30, 1938

Minor disasters were unusually frequent; 102 tornadoes, floods, and other catastrophes brought the Red Cross into action to feed, clothe, give medical care and rehabilitate 93,000 people.

War veterans and their dependents, numbering 220,000, aided during the year.

Men in the Army, Navy, Marine Corps and Coast Guard, numbering 35,000, helped in personal and family problems.

Safety in water sports, and first aid in accidents extended through training 82,000 Life Savers and 276,000 First Aiders. Fight against deaths from motor accidents extended through 2,265 Highway First Aid Stations.

Public Health Nurses visited a million sick persons; examined 610,000 children.

How to cure for the sick in the home and guard the family's health taught 55,000 persons, through Home Hygiene and Care of the Sick courses.

Volunteers made 520,000 garments for disaster victims and the needy; brailled and printed 720,000 pages for the blind.

School children, numbering 9,000,000, enrolled in Junior Red Cross for service.

Your membership in the Red Cross supports the work. Join during the annual Roll Call.

CHEERING THE SICK—Class instruction in Home Hygiene and Care of the Sick shows simple ways to ease the pain of the invalid.

LIFE RESTORED—Girls in Red Cross Life Saving class learn how life may be restored to drowning person.

HOME HAZARDS—Red Cross campaigns for safety in the home; falls such as this claim great toll of life.

Find Rich Gold Vein in Canada

Prospectors Are Enthusiastic Over Discovery Made at Nameless Lake.

YELLOWKNIFE, N. W. T.—A gold strike that may rank among the greatest in Canada's mining history has been made on a nameless lake 30 miles west of here.

The new gold field was discovered by Fred W. Thompson and Roy Lundmark, veteran Ontario prospectors, and many claims have been staked.

In describing the discovery, Thompson said he has been "all Ontario, Quebec and Manitoba, but not seen anything to compare with this."

Makes Find From Plane.

Thompson made his original discovery from an airplane while flying over a desolate area of rock.

"I first saw veins from the air about six weeks ago," he said, "and had been trying to get over here ever since. Norbert Miller, the pilot, brought Lundmark and me and put us down on this lake. We made a traverse, and two hours after we landed we found free gold a quarter of a mile from the lake, in one of three parallel veins each about five feet wide.

"We started staking right away. In the course of staking we ran onto a number of other veins which panned. Since that time we have been averaging one discovery a day, either high-grade gold or rock which pans."

Thompson, who was born in Croydon, England, and served six years in the British navy, started prospecting in Canada in 1908.

Rich Vein on Island.

Most important of the veins uncovered so far by Thompson is on what he calls "Treasure Island," a patch of rock and muskeg, surrounded by waters of the nameless lake, where a 35-foot-wide quartz vein lies exposed for 60 feet, and free gold gleams under two feet of water where lake slime has been scrubbed away.

On another near-by island, separated from Treasure Island by a 50-foot narrows, the continuation of the wide vein yields even richer gold samples, it was said.

Colin S. Johnston, Toronto engineer who examined the scene of the strike, said that the discovery "assured the future of the Yellowknife area."

"This is a great day for the Northwest Territories and all Canada," he said. "It is the most significant turn that the whole Yellowknife rush has taken. It means that there is a fertile field for prospecting in all the metasediment belts which were hitherto shunned."

New Type of Diving Suit Is Given Double Sheath

SYDNEY.—A new diving suit, which may revolutionize present methods of deep-sea diving, will be used in an attempt to salvage the cargo of the steamer Cumberland.

The wreck, with its cargo of metal valued at \$200,000, lies at a depth of 47 fathoms off the coast of New South Wales. The ship struck a mine in 1917 while on the way to England with copper, iron and zinc for British munitions.

Navy officials who have been testing the new diving suit, the invention of E. R. Clifford of Sydney, believe that it will permit diving operations at such a great depth, owing to its novel construction. It is built in two compartments, the outer of which is subjected to air pressure, while the inner contains air at normal surface pressure.

In old type of diving suits paralysis often resulted from the pressure of the air that had been forced in in order to resist the water.

328 Varieties of Birds Discovered in Michigan

ANN ARBOR.—A new check list of bird species found in Michigan, prepared by Prof. Joselyn Van Tyne, curator of Michigan museum, shows more than 328 varieties of birds found within the state. Of these, 199 are known to nest in Michigan.

Pointing out that the list does not claim to be complete, Professor Van Tyne said that the museum is soliciting records, authenticated by specimens wherever possible, to correct and supplement present information on Michigan birds.

Big Freeze Declared Due in 71,799 Years

MIAMI.—After two years of research, Professor Hirsch Yankelwitz, formerly of the Institute of Technology of St. Petersburg university, declares that the earth will freeze into a solid ball in 71,799 years.

It's all question of determining when the volcanic fires, which give life and vegetation, will burn out, he declares. He reaches his figure by comparing the dimensions of the earth, Mars and the moon, freezing three spheres of relative size, letting them form a coating of ice and then measuring the amount of moisture.

FARM TOPICS

YOUNG BIRDS NEED GROWING QUARTERS

Ample Space for Pullets Is Best Summer Plan.

By Dr. W. C. Thompson, Poultry Husbandman, Rutgers University—WNU Service.

Much of the success of next year's table-egg producing flock depends upon the way in which the young pullets are being grown this summer. Future layers must be protected against adverse conditions during the warm summer months.

A much too common fault among poultrymen is to crowd the pullets. Constant and too close contacts tend to injure the health of developing pullets and increase the risks of disease.

It is recommended that pullets be divided into colonies or flocks for handling on summer ranges or fields. Sixty pullets make a desirable unit and is the number which can be taken care of economically and efficiently in one standardized collapsible summer shelter. These shelters are light in weight and can be easily moved from place to place over the range. This means that each colony of pullets can be given not only ample space or area over which to roam, but also fresh, clean ground throughout the season.

Each colony should be handled as a separate unit and supplied with its own water troughs or fountains and its own mash and grain hoppers. Five such units can be efficiently managed on each acre of range, particularly if the range is covered with some green, growing crop, such as grass or alfalfa. In this way, each acre of range will accommodate 300 grown pullets to advantage. Such an arrangement will obviate overcrowding and minimize disease problems.

It may seem, during the early summer season, that the shelters could easily accommodate more than 60 pullets, but as the weeks advance the fast growing pullets will soon use the available space and prove the wisdom of having allowed that amount.

Dip for Sheep Scab Is Cure for the Disease

Sheep scab, a parasitic disease of the skin caused by tiny mites, can be cleared up by dipping the animals in a solution of lime and sulphur, coal tar disinfectant or 40 per cent nicotine sulphate. The solution should be made up at the rate recommended on the dip container, advises Wallace's Farmer.

For best results, the dip should be about 105 to 110 degrees in temperature. Keep each animal in the dipping vat for two full minutes. Keep badly infested sheep in for three minutes.

Follow with a second dipping 10 to 12 days later. Failure to make a follow-up dip at exactly the end of this interval means a possible re-infestation with a new brood of mites.

Along with treatment of the live animals, clean up and disinfect the sheds. Keep the dipped sheep out of these sheds for at least 30 days. In fact, following dipping, it is advisable to turn the sheep onto ground where they have not been running for a period of at least several months.

Grain Feed for Chicks

Chicks should be given grain feed after the first eight or ten days. This should be fed two or three times a day in the mash hoppers and on top of the mash. This lessens the chance of the chick picking up droppings. It is very essential that sufficient hopper space be supplied so that all the birds can eat at one time. Where it is necessary to keep the chicks in the brooder house, the ration should be supplemented with one per cent of biologically tested cod liver oil. However, if the birds have access to a range and direct sunlight this supplement is unnecessary.

Exercise for Cows

Dairy cows should have exercise, but not an excessive amount, says C. W. Turner, of the Missouri station. In all but two out of twenty-two comparative tests, there was an increase in the percentage of butterfat when cows were changed from rest to exercise of three miles daily. A decrease was noted when they were shifted from exercise to rest. In further experiments, it was observed that during a period of exercise the feed consumption was increased, milk production maintained and percentage of fat increased over a corresponding period of rest.

White Plymouth Rock

The White Plymouth Rock is the second most popular variety of this breed, according to a writer in the Wisconsin Agriculturist. All the characteristics of the White Plymouth Rock are supposed to be identical with those of the Barred Plymouth Rock except color. As a matter of fact the White Plymouth Rock tends to run somewhat larger in size, and the type is a little more uniform and a little better than that of the Barred Plymouth Rock.

Life of an Apple Tree

The life of an apple tree ranges from 50 to 150 years, depending on the soil.

Judges Elected for Life

Switzerland's Supreme court or federal tribunal judges are elected for life by the Federal assembly.

Must Settle Question Right

No question is ever settled until it is settled right.—Ella Wheeler Wilcox.

MILLBURN

There was a good attendance at the P. T. A. meeting at the school house Tuesday evening. Dr. L. J. McClure of Gurnee showed and explained motion pictures taken when he and his family made their trip to Europe last spring.

The Wesleyan Service Guild of Waukegan Methodist Church are repeating their play, "Plain Sister" for the benefit of the Ladies Aid Society at the church Friday evening, Nov. 25th.

The annual church bazaar and supper sponsored by the Ladies Aid Society, held last Friday evening was a great success, and credit and thanks are due everyone in the community who gave so generously of their time and food. Seven hundred people were served and the net supper receipts were \$374.17; fancy work, \$97.45; bakery, \$32.75; candy, \$20.45; and grab-bag \$10.25, making a total of \$535.07.

Rev. Holden was a guest for dinner at the Gordon Bonner home Sunday.

Mr. and Mrs. J. S. Denman, Robert and Alice Denman were guests for dinner at the Edwin Denman home in McHenry Sunday.

Misses Bernice, Juanita, Lucile and Thelma Clark, and Raymond Hauser drove to West Lebanon, Ind., Sunday and spent the day with relatives.

Frank Edwards made a business trip to St. Louis, Mo., last Tuesday, returning Thursday.

Mrs. Eva Alling spent Sunday afternoon at the home of her brother, Bert Edwards at Hickory.

Mrs. Mattie Edwards and son, Marc, of River Forest spent the week-end at the home of her parents, Mr. and Mrs. D. B. Webb.

W. F. Wetzel spent a few days with his family in Chicago.

Mr. and Mrs. Harry Keefe and daughter, Barbara, of Waukegan were callers at the J. Kaluf home Sunday evening.

Rev. Holden and daughter, Edythe, have moved their furniture to an apartment in Austin, but Rev. Holden will continue preaching here for a few weeks.

Mrs. C. E. Denman, Mr. and Mrs. J. S. Denman, Mr. and Mrs. George White, Mrs. J. S. Bonner, Mr. and Mrs. Leslie Bonner, Mr. and Mrs. Gordon Bonner, Victor Strang and Max Irving attended the funeral services for Mrs. A. W. Safford, which were held at the Kranpf funeral chapel in Wheaton Tuesday afternoon, Nov. 1st.

Mr. and Mrs. Harvey O'Hare and family of Waukegan, Misses Martha and Elsie Hillson of Chicago were guests at the home of Mrs. Ida Truax Sunday evening.

Mr. and Mrs. Lewis Bauman spent Sunday afternoon at the Fred Becker home in Kenosha.

Lyman Bonner has been ill with measles the past week.

Margaret Denman spent the week-end with the G. R. Johnson home at Elburn, Illinois.

Phyllis Hughes visited her sister, Margaret, and other relatives at Urbana from Thursday until Sunday.

LAKE VILLA

Lake Villa Community Church

I. B. Allen, Pastor

Sunday School—10 A. M.

Worship Service—11 A. M.

Sunday, Dec. 4, will be observed as Home-coming day in the Community Church and it is hoped that several of the former pastors and parishioners will be able to be present.

Dr. A. T. Stephenson, Dist. Supt., will be present to conduct the first quarterly conference of the year.

The painting of the church and parsonage is nearly completed and it makes a great improvement.

The Ladies Aid Society will serve the annual turkey dinner at the church dining room on Thursday evening, Nov. 17th, and serving will begin at 5:30, until all are served.

The Ladies Aid Society will take orders for quilts or comforters and make them up as you desire, and already have some tops ready to make up into comforters. Ask any member for particulars.

Mrs. Nettie Frazier visited her sister-in-law in Waukegan last Friday and Saturday.

The work of paving what is known as the Hawkins slough west of town and the short stretch between the F. Nader and Brickman places, started Saturday, so Grand avenue is closed at those places, and the work will go on as rapidly as weather permits.

Mr. and Mrs. Jack Linden and Jack, Jr., of Chicago visited the Albert Kappe family last Sunday.

Mr. and Mrs. William Fish entertained Mr. and Mrs. Sheridan Burnett and two sons of Antioch, Mr. and Mrs. Howard Fish of Barrington and Chester Haman of Waukegan last Sunday.

The small son of Mr. and Mrs. Jake Fish was christened at the Community church at the morning service.

Mr. and Mrs. Walter Schneider have the sympathy of the entire community in the loss of their three-year old daughter, who has been ill with diphtheria. She had seemed to be much better but she became much worse and passed away Saturday.

The funeral was held Sunday afternoon at the Warren cemetery. Rev. Allen conducted the service and Mrs. Ben Cribb sang.

Mrs. William Walker was pleasantly surprised last Saturday when about twenty relatives from Chicago, Rockford and Oak Forest came in to help celebrate her birthday. Mr. and Mrs. A. McGlashan of Lake Villa came in later to add their congratulations.

Mrs. Walker received many gifts of flowers, telegrams and cards besides two beautiful birthday cakes.

Mrs. Claire Sherwood entertained a number of ladies at a one o'clock dinner at her home last Thursday. These ladies had all been members of a club a few years ago, and it was a very pleasant time. Present were Mrs. Sophronia Murrie and Mrs. Jensen of Lake Forest, Mrs. Cannon and Mrs. Phillips of Libertyville, Mrs. Simpson of Wadsworth, Mrs. Roberts of Antioch, Mrs. Stella Pedersen, Mrs. Hooper and Mrs. Eleanor Kunzer of Lake Villa. Cards were played in the afternoon and Mrs. Roberts, Mrs. Hooper and Mrs. Pedersen were awarded prizes.

Mr. and Mrs. Clare Sherwood, Delbert and Bob Sherwood left last week for Florida where Delbert and Bob will be with their grandparents, Mr. and Mrs. R. H. Sherwood for the winter and Mr. and Mrs. Clare Sherwood will enjoy a motor trip to interesting places.

Mr. and Mrs. Devorak of Chicago and Mr. and Mrs. Hansen of Dubuque, Iowa, were guests of Mrs. Pedersen Sunday afternoon.

sen, President; Bill Effinger, Vice-president; Joe Nader, treasurer; and Clarence Bennecke, secretary.

There will be no school Thursday and Friday of this week. Thursday the teachers are taking a visiting day, and Friday is Armistice Day, a legal holiday.

The Boy Scouts went on a hike and roasted weiners and marshmallows. On the way back they played Robinswood. Mr. Dixon and Mr. Barnes went with us.

Dolores Kutz is leaving town. She is moving back to "Lindenhurst Farms." We hope she still attends our school.

We have been having exams for about two weeks now. We had another history exam today.

Intermediate Room

We have been talking about self-control and self-reliance in our room. We also copied the poem, "Be Thoughtful" for our poem books. We are trying to become more thoughtful of others.

Primary Room

Joyce Jacobi entered the first grade today. Joyce is living at Mrs. Frank Hamlin's. We are sure she will be very happy in her new home.

We have a miniature pilgrim village on our sand table, little log cabins and a log church. We haven't had time to dress the pilgrims, so they can't go to church until they are dressed.

The children have made some very good pilgrim posters in black and white.

Bud says all of our turkeys around the room look so worried.

Several of our children enjoyed seeing "Boys Town" last night.

Our room is making a border of the first Thanksgiving and the landing of the Pilgrims. We have trees, log cabins, Indians, and Pilgrims. So far it looks very nice.

Our room is making a border of the first Thanksgiving and the landing of the Pilgrims. We have trees, log cabins, Indians, and Pilgrims. So far it looks very nice.

EIGHT AND FORTY NAMES CHAIRMEN

Opening Meeting of Lake County Salon Held at Neville Home

New chairmen of Lake County Salon No. 191, Eight and Forty, who were appointed at its first meeting of the year, Nov. 2 at the home of Mrs. Carson Neville, Grayslake, are:

Mrs. Mancel Talcott, Paul Chase and Ernestine Clark, child welfare; George McGaughey, William Phillips, Harry Brown, partnership; Paul Rossberg, Ruth Harmon, William Whyte, finance; L. John Zimmerman, George Heckinger, Almond Thurlwell, Joseph Mieczynski, publicity; William Ward, Howard Garnant and Miss Loretta Burke, by-laws.

An all-year drive for juvenile tuberculosis prevention is the main objective of the Eight and Forty. As in previous years, the salon will continue to sponsor a child in the Lake Bluff orphanage as well as to take care of the Easter party at Grant cottage, Normal, Ill., and participate in the Christmas party for World War orphans in Lake county.

After the business meeting, bridge was played. Honors went to Mrs. Ward, Antioch; Mrs. McGaughey, Waukegan, and Miss Katherine Sheldon, Grayslake.

Attends Deans' Meeting Held at Mt. Vernon, Ill.

Miss Cornelia Roberts, state secretary of the Illinois Association of Deans of Women, represented Antioch High school at the association's annual conference, held recently in Mt. Vernon, Ill.

Ex-Governor and Mrs. Louis Emerson were among the distinguished guests at the convention. The principal speaker was Miss Harriet Allwyn, academic dean at Mt. Holyoke college.

Picks Oriental Poppy While First Snow Falls

Picking an oriental poppy in her garden Tuesday while the first snow of the season was falling was the novel experience of Mrs. Charles Wieneck, Grass Lake.

The large red oriental flower usually blooms early in the spring, and a "second crop" is unusual. Mrs. Wieneck reports that there have been three or four of them blooming in her garden during the past week.

She also picked roses on Monday. The unusually mild weather that lasted up to the present time is considered responsible for these phenomena, as well as for the unseasonable apple blossoms and other freaks of flora occurring in the mid-west region this fall.

Women's Clubs to Hold County, District Meets

A number of members from the Antioch Woman's club are planning to attend a meeting of the Lake County federation to which the Wauconda club will be hostess next Tuesday at Wauconda.

The conference will be an all-day event, with a luncheon at 12:30 o'clock. Those who are planning to attend are being requested to notify either Mrs. H. H. Grimm or Mrs. George Anzinger, telephone Antioch 165-W-1.

The Antioch club has also been invited to take part in a conference to be held by the Tenth District Federation of Women's clubs all day Friday, Nov. 18, at the Edgewater Beach hotel. The Edgewater Catholic Women's club will act as hostess.

Mrs. William T. Bruckner, president of the Illinois state federation, and Mrs. Fred M. Tuckerman, secretary, will be guests of honor. Speakers will include Miss Mila Baker of the radio program of the "Seeing Eye."

Child Study Group Holds Meeting in Libertyville

The child study group sponsored by the Lake County Home bureau met at the Village hall in Libertyville last Thursday. Mrs. Volk, Home Adviser, announces that considerable interest is being shown in this study. Miss Freda Al Peterson, Child Study specialist from the Extension Department of the University of Illinois, conducted this class, the first in a series of three lessons on the subject.

The next meetings will be held on the first Friday afternoons of December and January. Anyone interested in attending may contact Mrs. Volk at the Home Bureau office in Grayslake.

"Family Life in Europe" Is Speaker's Topic

The Antioch Mothers' club met at the home of Mrs. William Kufalk, South Main street, Tuesday evening. Mrs. Harold Ellis was the assisting hostess.

A special feature of the program for the evening was a talk on "Family Life in Europe" by Miss Cornelia Roberts.

Mrs. Roy Kufalk had charge of the discussion, on the topic of interpreting children to each other and encouraging their underlying affection.

Methodists Hear Dist. Superintendent

Fifty persons attended the pot luck supper and quarterly conference held at the Antioch Methodist church Wednesday evening, with A. Turley Stephenson, district superintendent, as the principal speaker. The table was decorated with chrysanthemums and other autumn flowers.

Mr. Stephenson spoke on the coming union of the Methodist Episcopal church of the south, the Northern Methodist Episcopal church and the Protestant Methodist church next spring. The union will make the denomination the largest Protestant church in the country, he explained.

After the conference the Rev. W. C. Henslee, Antioch pastor, and Mrs. Henslee were honored by the parishioners with a "pound party."

A social time and the serving of coffee and doughnuts closed the evening.

Home Bureau Style Show Awards Are Announced

Mrs. Robert Gillespie, Diamond Lake, received first prize, and Mrs. George Lodesky of Wadsworth second in the style show held in connection with the Lake County Home bureau party Friday at the Grayslake school. All of the costumes modeled were made by the wearers.

Certificates for completion of the home bureau clothing construction course were presented by Mrs. Helen Volk to Mmes. Fred L. Ray, George Cashmore, George Lodesky, Wadsworth; Robert Gillespie, Harry Wagner, Diamond Lake; Charles Bratzke, Della Miller, Bert Doolittle, Anna Peterson, Lake Villa; Earl Barron, Charles Wray, E. C. Hook, and Miss Ann Wirtz, Grayslake; Mrs. Paul Jenkins, Libertyville.

Ruth Raether, daughter of Mrs. O. L. Raether, was a juvenile model. Mrs. Harold Druce was general chairman of the party.

Girl Scout News

The Antioch Girl Scouts in the future will meet at the home of Mrs. M. M. Stillson on Spafford street. For the past year they have been meeting at the home of Mrs. H. Vos on Main street. Mrs. Vos has moved to Iowa. The Scouts are grateful to Mrs. Vos and Mrs. Stillson for the use of their homes and for the interest they have shown in the Scout organization.

You would call a Doctor

If you broke a leg,

Or a Veterinarian—

if your horse was sick.

Call a "Furnace Physician"

When that furnace won't seem to heat the way it used to.

Or smokes in rebellion all the time.

Find out why those extra rooms won't heat.

Get the "Lowdown" on how to save up to 25% of those "fuel dollars" you burn each year!

It looks like a cold winter, and now is the time to put your heating plant in A-1 condition.

We have a complete stock of parts for all furnaces on hand. Your house need never cool off.
